June 1997

Dear Child Safety Advocate:

The All-Terrain Vehicle (ATV) Safety resource packet contains materials that may be relevant to your injury prevention or health promotion efforts related to ATVs. Components are intended to provide professionals with relevant injury facts, suggestions for preventive actions, and approaches to safe operation of all-terrain vehicles. Items included were developed with funding from the Maternal Child and Health Bureau with cooperation from the Specialty Vehicle Institute of America and National 4-H Council.

Feel free to contact the CSN Rural Center if you would like to discuss in detail the contents of this packet or other rural injury prevention efforts.

Sincerely,

Barbara Lee, RN, PhD
Director

Chris Hanna, MPH
Program Manager
